

Darryl A. Piglia

Chief Executive Officer

Darryl Piglia learned the importance of working hard, knowing the products and valuing relationships with people from a very young age. His father, Pete Piglia, founder of the 100% privately owned company, prepared Darryl for second generation succession by ensuring he held a variety of positions within the company from hands on roles in production and assembly through supervision, and management of human resources and sales. In January of 2011, Darryl and his brother assumed the helm of the company following their father's retirement at which time Darryl was named Chief Operating Officer. He has since ascended to the role of Chief Executive Officer.

As CEO, Darryl closely monitors the organization's key strategies of sustaining Smart Growth, ensuring Operational Excellence, and establishing NMG as an Employer of Choice. Leading with an emphasis on safety, quality, continuous improvement, and superior customer service Darryl works with a team of management that engages daily with employees, suppliers, and customers to drive results. He is committed to sharing the fruits of that hard work with the greatest assets of the company, its dedicated people! Keeping turnover down and engagement high is an important part of the vision Darryl and his family share.

A proud alumnus of St. Vincent St. Mary High School, Darryl remains a strong supporter of the school through fundraising, sponsorships, and volunteering. He continued his professional development at The Center for Creative Leadership (CCL) where he participated in the Looking Glass and Leadership at The Peak series. In June of 2016, Darryl graduated from Leadership Akron's Signature Program. As a member of Class 32, he was immersed in unforgettable experiences broadening his relationships in the Akron community and sparking his interest in numerous community service opportunities.

Darryl and his wife Melissa enjoy their country home in Cuyahoga Falls. They have three children, one of which has started his journey with the NMG Aerospace. They enjoy spending time with family and are actively involved with their church and other community events.
